To,  
The Principal  
Yashoda Girl's Arts & Commerce College,  
Nagpur.

We would like to take the opportunity to introduce ourselves to you.

UPES (University of Petroleum and Energy Studies) was established in 2003 by an act of the state of Uttarakhand and is India's first public-private university. It is an institution of global standing, which fosters development of professionally-competent talent and contributes to nation-building. It is our mission to ensure that education provided by us equips students with specializations that help them to not only secure jobs, but also gain holistic education, giving them an edge over others.

Thus, it becomes important for the colleges to be aware of the various specialisations, courses and career options. With the above as our objective, we have designed a program, for which colleges can partner with us. Career alignment plays a critical role in student's career development cycle. Focus is given to help students to determine which subjects they may want to focus on to reach a chosen career path.

With this as a core objective, we have decided to introduce "Insight", a **Career Alignment Test** for students. This tool is designed to help individuals understand how a variety of personal attributes (i.e. Emotional Quotient, Orientation style, Interest, Aptitude and Personality), impact their potential success and satisfaction with various career options and work environments.

**Please note that this is complimentary for final year students of your prestigious institute.**
